Route · all on the T1 North Shore Line, follow ①→⑥

Step	Where / which line	How to get there	Shots, in order	Notes
①	**Central station**	Enter via the Grand Concourse → follow the "Sydney Trains / T1" signs to the T1 North Shore Line northbound platform (the prototype says Platform 16; usually 16 or 17, check the screens).	Concourse: 1–1 → platform entrance: 1–2 → platform: 1–3, 1–4, 1–5, 1–6 → I–1, I–2, I–3 → departure board: F–1 (optional) → (switch to the S2 link, put on the lanyard) stairs: 2–1 → platform: 2–2, 2–3, 2–4	Both scenarios start here, so finish every Central shot first. Before S2, switch the phone to scenario=2.
②	**T1 North Shore Line northbound (towards Hornsby / Berowra)**	Central → Chatswood, about 25 min; stay on past Wollstonecraft. Pick a busy train.	Central platform: 2–5 (squeeze on) → in the carriage: 2–6 (standing at the rail)	Keep strangers' faces unrecognisable; use Alex as the foreground.
③	**Chatswood station**	Exit towards Westfield / Chatswood Chase and find a well–lit shop entrance.	Shop door: 2–7 → back on the platform: C–3 (smile to camera)	Chatswood covers the S2 ending plus the closing shot C–3.
④	**T1 North Shore Line southbound (towards City / Central)**	Chatswood → Artarmon → St Leonards → Wollstonecraft, about 8—10 min. Pick a quieter train for the seat shots.	Chatswood southbound platform: 1–7 (step into a quiet carriage) → in the carriage: 1–8 (seated, earphones)	Check on the screen that the train stops at Wollstonecraft. The ride is short, so start 1–8 as soon as you board.
⑤	**Wollstonecraft station**	Get off, exit and film on the street outside.	Outside: 1–9 (walking away)	This is the S1 ending. Wrap.

Story setting (prototype data): Alex lives in Wollstonecraft, studies at UTS (Central) and works in Chatswood. The S1 boarding shot (1–7) is filmed on the Chatswood southbound platform because trains in that direction are emptier; viewers can't tell if station names stay unreadable. Costume: grey hoodie + black backpack throughout; add a work lanyard or staff bag for S2.
